EDUCATOR ENHANCEMENT PROGRAM

The MacPherson Institute is pleased to offer the Educator Enhancement Program leading to two Certificates of Completion. This Program is designed to allow McMaster University educators to improve and enhance their teaching and learning practices in ways that are responsive and flexible to their own needs and interests. Participants in the program will select the seminar topics and practicum options that are most relevant to their development. The program components are designed in such a way that they encourage participants to consider the courses they teach, and identify changes that can improve learning, increase retention, and the enrich the student experience.

In order to meet the varying needs of McMaster instructors, we have created two Certificates of Completion, which are described below.

Foundational Educator Enhancement Certificate of Completion

To earn this certificate of completion, participants are required to:

- 1) Attend FIVE (5) seminar topics
- 2) Submit FIVE (5) reflective assignments, one for each seminar series attended, to be submitted within THREE (3) weeks of completing the seminar
- 3) Complete the Foundational Capstone Portfolio Seminar
- 4) Submit the Foundational Capstone Portfolio

Advanced Educator Enhancement Certificate of Completion

To earn this certificate of completion, participants are required to:

- 1) Have completed and been awarded the Foundational Educator Enhancement Certificate of Completion
- 2) Attend THREE (3) additional seminar topics with reflective assignments
- 3) Attend and complete one Advanced Practicum Opportunity
- 4) Complete the Advanced Capstone Portfolio Seminar
- 5) Submit the Advanced Capstone Portfolio

It is not mandatory for participants to attend all three sessions of the seminar; it is, however, necessary to attend the first session if they wish to attend the second or third sessions. Generally, completion of all three sessions is required to apply the seminar toward a certificate of completion.
